No. P. 9/B of 1936.

OFFICE OF THE SURGEON-GENERAL
WITH THE GOVERNMENT OF BOMBAY :

Bombay, 24th June 1936.

From

Major-General E. W. C. BRADFIELD, C.I.E., O.B.E.,
M.B., M.S. (Lond.), F.R.C.S.E., K.H.S., I.M.S.,
Surgeon-General with the Government of Bombay,
Bombay ;

To

THE SECRETARY TO GOVERNMENT,
General Department,
Bombay.

Subject.—Annual Report on Civil Hospitals and Dispensaries for the year 1935.

Sir,

I have the honour to submit, for the information of Government, the annual report on Civil Hospitals and Dispensaries for the year 1935.

BUILDINGS.

2. (*a*) *Major works.*—Quarters for menials were provided at the Civil Hospital, Ahmedabad, at a total cost of Rs. 27,678, which included the price of land acquisition.

(*b*) *Minor works.*—Additions and alterations to hospital buildings costing Rs. 31,630 were carried out at various hospitals.

(*c*) No other works were undertaken by Government during the year.

(*d*) A new hospital at Thana has been constructed at a cost of about Rs. 2 lacs by the generosity of Mr. Narayan Vithal Sayana in memory and to be named after his late father as the " Vithal Sayana Hospital ". The new building will accommodate 49 beds, an increase of 16 on the old establishment.

Staff has been provided for 36 beds only, but the remaining beds will be opened should there be a demand for them.

BOMBAY HOSPITALS.

3. 35 additional beds at the B. J. Hospital for children were opened and 15 beds at the Cama and Albless Hospitals were reopened. The improvement of hospitals in Bombay Suburban area and in Thana as noted above will also help to relieve congestion in Bombay hospitals.

Mofussil Hospitals.

4. X-Ray apparatus were installed at the following hospitals :—

(1) Civil Hospital, Hyderabad. Cost Rs. 10,000 .. Money provided by Government.

(2) Civil Hospital, Karachi. Cost Rs. 2,321 .. Money provided by Government.

(3) Civil Hospital, Dhulia. (The Silver Jubilee X-Ray and Electro-Therapeutic Department). Cost Rs. 7,000 .. Money provided by contributions from Local Bodies, private institutions and persons.

The installation of X-Ray apparatus at Belgaum and Jalgaon is still under consideration.

Advisory Committees.

During the year 1935 advisory committees were established at the Civil Hospitals, Dhulia and Mirpurkhas (Sind).

Statement A.

5. The total number of institutions open at the beginning of the year under report was 533. During the year 2 new dispensaries were opened and 1 was closed. The number of institutions open on 31st December 1935 was 534.

Statement B.

6. The following table shows the distribution of Medical Officers including (Honorary Medical Officers), Nurses, Midwives, Dais and compounders in the several classes of institutions during the year 1935 :—

Class of Hospitals and Dispensaries.	Medical Officers.	Nurses.	Midwives.	Dais.	Compounders.
I State, Public ..	302	401	21	5	82
II State, Special ..	13	11	..	..	8
III Local and Municipal fund.	463	198	81	35	421
IV Private aided ..	33	53	20	16	18
V Private Non-aided ..	92	57	24	40	55
VI Railways ..	98	29	..	1	68
Total ..	1,001	749	146	97	652

Statement C.

7. The following table shows the number of patients treated, their daily average number, death rate, number of beds available, etc., during 1934 and 1935 :—

——	1934	1935
Number of in-patients treated during ..	1,15,775	124,093
Number of out-patients treated during ..	2,982,840	3,227,155
Total number of patients treated during ..	3,098,615	3,351,248
Number of beds available	7,210	7,320
Daily average attendance of patients { Indoor ..	4,956·2	5,450·0
Daily average attendance of patients { Outdoor ..	28,063·9	30,504·2
Total number of patients treated at female hospitals.	118,381	121,368
Number of cures*	69,240	75,562
Number of deaths*	7,649	8,305
Ratio of death's percentage to the total treated. *	6·6	6·6

*Among in-door patients only.

Statement D.

8. The sub-joined table shows the principal diseases among the patients treated in state-public, local and Municipal Fund and Private-aided institutions during the year 1934 and 1935 and the mortality among in-patients.

Name of Disease.	1934.		1935.	
	Cases.	Deaths.	Cases.	Deaths.
Cholera	2,499	51	1,380	58
Dysentery	47,346	169	49,540	188
Influenza	50,254	18	42,651	17
Injuries, local and general ..	237,599	844	264,052	936
Labour cases, normal and abnormal.	24,281	123	24,515	179
Leprosy	2,708	124	3,107	120
Malaria	5,94,546	89	629,826	78
Pneumonia	18,980	859	18,535	910
Plague	1,039	62	148	7
Small-pox	816	58	2,356	248
Tuberculosis of the lung ..	14,159	1,012	15,706	1,074
Other forms of tuberculosis ..	5,982	132	8,016	159

Note.—There is a marked decrease in cholera and plague cases, but there is an increase in small-pox cases.

Statement E.

9. The total number of surgical operations performed during the year under report was 173,986 against 154,018 in 1934. These were

performed on 169,319 persons with a mortality of 0·6 per cent. as compared with 151,417 persons with the same percentage of mortality in 1934.

Statement F.

10. The following table shows the receipts and expenditure on account of the maintenance of hospitals and dispensaries during the year 1935 :—

	Receipts.	
	1934.	1935.
	Rs.	Rs.
Cash balance on 1st January 1935	3,14,402	*7,23,757
Contributions from Local Bodies	19,28,186	20,14,590
Contributions from Government	25,41,457	27,68,688
Miscellaneous receipts including hospital fees, charitable contributions, etc.	12,45,681	8,44,672
Total ..	60,29,726	*63,51,707

*The increase in the receipts is due to the increase in cash balance this year as shown in the footnote to this statistical statement.

	Expenditure.	
	1934.	1935.
	Rs.	Rs.
Gross expenditure	56,35,729	56,01 900
Deduct amount credited to Treasury in case of Government hospitals or credited to dispensary fund in case of Dispensaries on account of hospital fees and unserviceable articles, etc., and also amounts invested during the year. ..	— 4,18,213	—6,36,425
Net cost ..	52,17,516	49,65,475
Average cost per diet	0 4 10	0 4 9

Statement G.

11. On the 1st January 1935, the invested capital stood at Rs. 22,56,930. During the year Rs. 2,92,124 were invested. Securities worth Rs. 1,53,701 were sold or withdrawn, leaving the total invested capital at Rs. 23,95,353 at the end of the year.

SUBORDINATE MEDICAL SERVICE.

12. With a view to increase the efficiency of the service, the following improvements have been introduced in the Subordinate Medical Service of this Department :—

(1) All new recruits to the Subordinate Medical Service will on appointment be posted to the Civil Hospitals, Poona and Ahmedabad,

for practical training, for a period of six months in the first instance. At the end of this period, they will be required to undergo a further course of training in practical hygiene and preventive medicine for one month.

(2) A scheme has also been evolved whereby all the 2nd Assistants at the Civil Hospitals are being given the requisite training in clinical laboratory work and Venereology at Poona and Ahmedabad. Similar arrangements have been made to train officers in X-Ray, Mental Diseases, Leprosy and other diseases with the object of forming a cadre of officers with such special qualifications.

13. Notes on the working of the Medical Educational Institutions, viz., Grant Medical College, Bombay, B. J. Medical Schools, Poona and Ahmedabad, are attached as Appendix (1).

14. Government appointed a Committee consisting of the following personnel to examine the problem of teaching at the Medical Schools in this Presidency and to suggest improvements therein :—

Chairman.

(1) The Surgeon-General with the Government of Bombay.

Members.

(2) The Superintendent, B. J. Medical School, Poona.

(3) The Superintendent, B. J. Medical School, Ahmedabad.

(4) Sir Mangaldas V. Mehta, Kt., O.B.E. (Representative of the Bombay Medical Council.)

The report of the committee has been submitted to Government and is under their consideration.

15. A special note on rural medical relief and its existing position is attached as Appendix (2).

With these remarks, I submit the Annual Report for the approval of Government and request that Government will be pleased to accord their approval to it and permit its publication.

I have the honour to be,

Sir,

Your most obedient servant,

(Signed) E. W. C. BRADFIELD,

Major-General, I.M.S.,

Surgeon General with the Government of Bombay.

MO-II Bk O 8—1+—

APPENDIX (1).

Medical Schools.

Number of Students and Admissions.

The B. J. Medical Schools at Poona and Ahmedabad opened the year 1935–36 with 318 and 223 students respectively as shown in the subjoined table.

B. J. Medical School, Poona.				B. J. Medical School, Ahmedabad.			
Year.	Male.	Female.	Total.	Year.	Male.	Female.	Total.
I ..	17	7	24	I ..	70	4	74
II ..	104	30	134	II ..	65	2	67
III ..	33	11	44	III ..	21	1	22
IV ..	96	20	116	IV ..	57	3	60
Total ..	250	68	318*	Total ..	213	10	223†

*24 male and 32 female students were free.

†13 male and 3 female students were free.

During the year there were 68 (52 males and 16 females) new admissions at Poona and those at Ahmedabad, numbered 64 (60 males and 4 females), and at the end of the year (on 31st March 1936), there remained 334 students at Poona and 241 at Ahmedabad in the several classes as shown below :—

Year.	Poona.			Ahmedabad.		
	Male.	Female.	Total.	Male.	Female.	Total.
I ..	18	5	23	56	5	61
II ..	92	37	129	98	4	102
III ..	44	8	52	20	..	20
IV ..	107	23	130	56	2	58
Total ..	261	73	334	230	11	241

Examination Results.

2. The following table shows the number of students that appeared for the first, second and final L.C.P.S. examinations held during the year and passed, from both the medical schools :—

Year.	Poona.								
	Appeared.			Passed.			Failed.		
	Regulars.	Repeaters.	Total.	Regulars.	Repeaters.	Total.	Regulars.	Repeaters.	Total.
1st L.C.P.S.

November 1935 ..	10	33	43	4	5	9	6	28	34

Income and Expenditure.

3. The following table shows the income and expenditure of the two medical schools.

Receipts.

Items.	Poona.	Ahmedabad.
	Rs.	Rs.
Fees from paying pupils	27,161	23,635
Scholarships and prizes, etc.	4,095	3,194
Hostel rent	2,644	3,009
Miscellaneous	....	62
Total ..	33,900	29,900

Expenditure.

Items.	Poona.	Ahmedabad.
	Rs.	Rs.
Pay of officers	30,049	26,688
Pay of establishment	10,546	11,039
Allowances and honoraria	10,168	8,616
Contingencies	7,691	6,148
Scholarships and prizes	3,995	3,194
New works and repairs to buildings	2,002	1,167
Total ..	*64,451	†56,852

* Of this total expenditure 47·4 per cent. was met from provincial funds, 42·1 per cent. from fees and 10·5 from other sources.

† Of this total expenditure 47·4 per cent. was met from provincial funds, 41·6 per cent. from fees and 11·0 per cent. from other sources.

Government Freeships and Scholarships.

4. During the year, 22 freeships to deserving needy students and 6 scholarships of Rs. 15 each to lady students were granted at the Poona Medical School and at Ahmedabad 13 freeships and 2 scholarships of Rs. 15 each to 2 lady students were granted.

5. *General.*—The conduct of the staff and the students was very good during the year. The College of Physicians and Surgeons have on representatior by Government now agreed to postpone the application of the revised regulations for the L.C.P.S. course till 1939.

Grant Medical College, Bombay.

6. The Grant Medical College, Bombay, opened the year 1935-36 with 690 students as shown in the sub-joined table :—

Year.	Male.	Female.	Total.
I	123	26	149
II	89	12	101
III	103	12	115
IV	105	15	120
V	172	33	205
Total ..	592	98	690

During the year there were 120 (104 males and 16 females) new admissions and at the end of the year (on 31st March 1936), there remained 717 students in the several classes as shown below :—

Year.	Male.	Female.	Total.
I	104	16	120
II	108	23	131
III	80	16	96
IV	103	9	112
V	219	39	258
Total ..	614	103	717

Examination Results.

The following table shows the number of students that appeared and passed in the several examinations mentioned below :—

Examinations.	Appeared.	Passed.	Failed.
1st M.B., B.S.			
April 1935	114	39	75
December 1935	198	58	140
2nd M.B., B.S.			
April 1935	89	67	22
December 1935	82	56	26
3rd M.B., B.S.			
April 1935—			
Group A	127	36	91
Group B	119	28	91

Examinations.	Appeared.	Passed.	Failed.
December 1935—			
Group A	148	38	110
Group B	151	29	122
M.D. (Branch 1)	5	1	4
M.S.	5	3	2
B.Sc.	1	1	..
Diploma in Ophthalmology	4	2	2
Final L.C.P.S.			
May 1935	7	3	4
November 1935	11	..	11
B.Hy. (Parts I and II)	*5	1	4

*3 passed in Part II only.

At the April 1935 3rd M.B.,B.S. examination, 48 candidates passed in the whole examination.

At the December 1935 3rd M.B.,B.S. examination, 25 candidates passed in the whole examination.

Government Freeships and Scholarships.

There are no freeships available at this college. One Government scholarship of Rs. 40 per mensem tenable for 4½ years was awarded to one woman student during the year.

Income and Expenditure.

The following table shows the income and expenditure of the college during the year 1935-36 :

Receipts.		*Expenditure.*	
Items.	Rs.	Items.	Rs.
Fees from paying pupils ..	1,68,937	Pay of officers ..	1,11,755
Scholarships and prizes ..	13,669	Pay of establishment ..	70,538
Hostel rent ..	16,759	Allowances and honoraria.	26,963
Miscellaneous ..	743	Contingencies ..	66,579
		Scholarships and prizes ..	20,437
		Repairs to buildings ..	1,200
		Payment to the Bombay Municipality for practical instructions.	4,160
Total ..	2,00,108	Total ..	3,01,632*

* Of this total expenditure 33·7 per cent. was met from provincial funds, 56·0 per cent. from fees and 10·3 per cent. from other sources.

APPENDIX (2).

RURAL MEDICAL RELIEF.

1. The problem of providing a satisfactory system of Medical relief for rural areas, the most important and at the same time most difficult task of the Medical Department, has been under consideration for several years; frequent references have been made in the annual reports of Civil Hospitals and comprehensive information is now available on the subject. The attached map and tabulated statements indicate the extent to which medical aid is already available in each district of Bombay. In this note it is proposed to examine the accepted methods of medical relief together with the factors and principles which should determine their use; to consider in what way more relief can be made available to the villages and what measures can be recommended to deal with any deficiencies revealed in the Presidency map. The very great assistance which has always been given by the splendidly equipped Mission Hospitals does not enter into our discussion, while it is considered that schemes for providing first aid, or simple remedies, by unqualified persons are matters more suitable for private than Government enterprise.

2. The problem is influenced by the following factors:—

(*a*) *Finance.*—A comprehensive and efficient scheme of Rural Medical Relief is a costly undertaking and beyond the financial power of any Government. At the present time Government contribute 2/5ths of the cost of 119 dispensaries, which are under the control of District Local Boards, 2/7ths of the cost of 86 Municipal dispensaries and 98 per cent. of District Headquarters Hospitals. It is desirable therefore that any extension of Government subsidy should be accompanied by similar private or local assistance.

(*b*) *Extent of Local effort.*—More enthusiasm is always available for a local project than for one which is promoted and controlled by Government; the desirability of enlisting private help in any scheme for rural medical relief is very apparent.

(*c*) *Density of population.*—An examination of the District statistics shows that practically all the private doctors practising in rural areas are settled in the larger towns or villages where there is already a dispensary. This is not a phenomenon peculiar to India, it has been noted in other countries, which contain large thinly populated areas. The doctor is an educated man who looks for facilities in the shape of schools for the education of his children, for social amenities to which he has been accustomed, and a reasonable income; all of these are unobtainable in thinly populated regions.

(*d*) *Communications.*—With the increasing use of mechanical transport, larger numbers of the village population are finding their way, by motor lorry, to the larger and more popular hospitals. In some districts private doctors themselves are making use of the motor car

and are visiting regularly the villages near their own headquarters. It is, therefore, obvious that improved communications, a generous road construction policy, are as necessary for the solution of the medical problem as the building of additional hospitals and dispensaries.

(*e*) *Nurses.*—More women are coming forward for training attracted by the career of service which the profession offers, while local bodies and villages are realising their importance and value as a measure of Health Uplift.

(*f*) *Supply of Doctors.*—The rural dispensaries have always been staffed with doctors of lower qualifications, formerly the Sub-Assistant Surgeon, now a licentiate of the Bombay College of Physicians and Surgeons (L.C.P.S.). When doctors were few, the policy was necessary and has provided this Presidency with many men whose ambitions have been far greater than the standard of their qualification, and whose work and skill have rightly won admiration and confidence. At the present time, however, graduates of the Bombay University are coming forward in greater numbers, anxious to obtain appointments in rural dispensaries, and if we are to provide the man with a wide and sensible comprehension of his calling that a sound rural Medical policy demands, then their recruitment must be encouraged. The discussion of medical qualifications need not detain us further than to emphasise the connection of schemes for medical relief with an efficient medical education policy.

(*g*) *Co-ordination.*—The ideal to aim at is the cottage (village) hospital, a centre of medical effort for a moderate and well defined area, attracting the local practitioner to give his assistance in an honorary capacity, and with a doctor in charge who will have the leisure and ability to initiate and assist Schemes of Health Uplift and Prevention of Disease. The Civil Surgeon should be more intimately concerned with the co-ordination of all Health and Medical activities and should be granted more liberal travelling facilities.

(*h*) *Prevention.*—No scheme for rural medical relief is complete without a consideration of measures for prevention of disease. An efficient co-ordination between the efforts of the Medical and Health Departments can only be brought about through the Rural doctor, a man in whom the villager has confidence and who should be qualified and able to initiate schemes of Health Uplift. Treatment and prevention, as applied to medicine, can never be separated.

3. *Methods.*—Although to some extent the number of dispensaries will vary with the extent and character of the communications, the problem cannot be stated in any general terms; each district and area should study the methods available and their suitability for its purpose.

(*a*) *Nursing.*—The need for trained nursing and skilled assistance for midwifery cases is universally recognised. A sound policy would be for each dispensary to have a trained midwife who should have responsibilities both in the hospital and in its area.

—NOTES—
Bigger circles indicate a ten miles radius from a Hospital or Dispensary.
Smaller circles indicate a five miles radius from a Hospital or Dispensary
Triangles indicate Mission, Local Board or Private institutions such as Hospitals, Dispensaries, Leper Homes, Maternity Homes etc., which are not on the grant-in-aid list of the Medical Department.

(*b*) *Dispensaries.*—The presidency map shows how these are distributed, and the areas they serve. We should aim at the attainment of an improved service and with the help and co-operation of local practitioners should encourage the dispensaries to become centres of real medical activity.

(*c*) *Travelling Dispensary.*—This may be defined as a complete unit, with a doctor, compounder and menials, capable of undertaking extensive tours in a district. For special diseases, e.g., of the eye, leprosy and in connection with the Blind Relief work, they are very useful. For ordinary work, however, they are expensive and are not desirable unless visits are made to villages at very short intervals. To visit the sick man once and not see him again for several days or weeks is not sound medicine.

(*d*) *Subsidised Doctors.*—The doctor engaged is paid a small salary and a yearly allowance for medicine, in return for which he undertakes to treat the sick poor. In many cases the village provides accommodation for the dispensary or a house in which patients can be seen. This scheme has proved successful in other Provinces.

(*e*) *Travelling Doctors—*(*i*) *Subsidised.*—The subsidised practitioner as in (*d*) may undertake charge of three or four villages which are easily accessible by road or rail.

(*ii*) *Dispensary Doctors.*—In many dispensaries the doctor does not see more than 30 to 40 patients in a day, and his services could very well be spared to visit branch dispensaries opened at suitable places, accessible by road or rail. He could, for instance, visit branch dispensaries on two or three days a week, the compounder seeing any urgent cases until he returns; this scheme would be very much helped where honorary workers are available to take regular out-patients. The Medical Officer would be paid a travelling allowance. Many villages have a market day on which a visit from the dispensary doctor would be very welcome.

4. Notes on existing district medical facilities (*vide* map).

NORTHERN DIVISION.

Ahmedabad.

No doctors practising in non-dispensary towns or areas. The areas not served by dispensaries are very thinly populated and have poor road communications. Centres along the railway could be served by doctors from Ahmedabad.

Kaira.

Kaira seems to be well supplied with medical aid and the ratio of doctors is higher than any other district. There are several popular and well-managed mission hospitals at Anand, Borsad and Nadiad.

Broach.

Broach is well supplied with dispensaries and the majority of the villages are within less than 7 miles of a dispensary. Private doctors are practising at the following non-dispensary areas:—

(1) Shukaltirth, (2) Nikora, (3) Palej, (4) Gajera.

Road communications are poor especially in the rains.

Panch Mahals.

Except a thinly populated area between Godhra and Dohad, the district is well supplied with dispensaries. The communications by road and rail are good.

Surat.

Surat appears to be very well supplied with dispensaries and the majority of people are within 5 miles of a doctor. A number of doctors are practising in non-dispensary areas and others visit neighbouring towns and villages.

Thana and Bombay Suburban District.

Except the thinly populated, and hilly areas of the eastern border, Thana is well served by dispensaries, especially along the coastal area.

CENTRAL DIVISION.

Ahmednagar.

No private doctors in non-dispensary areas—a poor district. Areas around Ahmednagar town (west and north) are badly served but appear to have fair road communication and are thinly populated. More areas could be served by subsidised doctors making use of good road communication.

East Khandesh (Jalgaon).

Well served and majority of people are within 6–7 miles of a dispensary. No doctor is practising in non-dispensary areas. The hill territory to north is thinly populated, but malaria is prevalent.

West Khandesh (Dhulia).

Areas not within 10 miles of a dispensary appear to be hilly and thinly populated. Road and rail communications are fair. Travelling doctors, based on existing dispensaries, would be useful.

Nasik.

Nasik is well supplied with medical aid. The area round Peint is very malarious, and requires a permanent travelling dispensary or doctor. The Civil Surgeon is anxious to introduce a scheme by which dispensary doctors can tour in surrounding villages, and there appears to be room for an organisation of this nature based on existing dispensaries.

POONA.

Except for small areas North West—which are hilly and thinly populated, North East—thinly populated crossed by main road to Nasik and Ahmednagar, South West—hilly and thinly populated, South East—thinly populated and crossed by main road to Sholapur; practically the whole district is within ten miles of a dispensary and large parts of it within 5 to 7 miles. Travelling doctors could be usefully employed.

SATARA.

Is better served than most districts and is especially helped by Missionary Societies; the Hospitals at Miraj (S. E. border) and at Wai attract patients from all over the Presidency. Several maternity centres at Satara town have made a good beginning, and the need in this district would be mainly to improve existing institutions with nurses, and to encourage honorary practitioners.

SHOLAPUR.

This district is fairly well supplied with doctors and medical aid. Requirements are nursing, improvement of existing facilities and encouragement of honorary practitioners.

SOUTHERN DIVISION.

BELGAUM.

Medical aid fair. South-west is malarious, and area immediately south of Belgaum is badly served, for which subsidised practitioners would be suitable. Belgaum doctors already make use of road and rail communication.

BIJAPUR.

Has a flourishing Blind Relief Association which does very good work; it employs one travelling medical officer and 11 field workers in addition to maintaining the Eye Hospital at Bijapur. This district also has 10 village aid posts, managed by School teachers which are of doubtful value. Medical aid fair on the whole, should concentrate on improvement of existing facilities, with travelling (subsidised) doctors.

DHARWAR.

District well served with doctors, but practitioners prefer to work in dispensary areas—Welfare work is flourishing in Hubli and the District has a strong Red Cross Branch.

KANARA.

Coast well served except area immediately north of Karwar, where communications are poor and interrupted. A new dispensary or subsidised practitioner would be useful in this area (Kadra-Aushi). Sirsi is a popular medical centre which could be improved with better equipment and nursing. Malaria officers are appointed in Supa Petha, Yellapur, Sirsi and Siddapur.

KOLABA.

Well served by dispensaries and doctors. Majority of villages are within 6 or 7 miles. One private doctor in a non-dispensary area at Kihim. Civil Surgeon suggests opening dispensaries in Kashela (Karjat Taluka) for villages below Matheran hills, in Poladpur (Mahad Taluka), but these areas would equally well be served by travelling doctors based on Mahad and Karjat. Chouk is visited by Medical Officers of Local Board Dispensary, Khalapur, and a private doctor has been appointed for visiting the villages of this area at Rs. 75 monthly (Village Uplift). Anti-malaria officers October to January, Pen, Panvel and Karjat Talukas. Guinea worm prevalent for which money is being spent on improving wells. The road communications poor but are being improved. The chief solution in this district could be found by employing subsidised and travelling doctors.

RATNAGIRI.

Large areas on coast, between Chiplun and Ratnagiri, Ratnagiri and Deogad, are at considerable distance from a dispensary or doctor, while communications are poor. The ghat areas which are thinly populated are fairly well served. All the private doctors are congregated in the dispensary areas, which suggests that facilities for practice are poor elsewhere. Ratnagiri requires more dispensaries or subsidised doctors at Mandangad or Bankot, Guhagar (Ratnagiri-Dapoli area), and possibly Ratnagiri-Deogad area. Area west of Deogad appears well served by main roads. In general communications are bad. A first class Mission Hospital at Vengurla.

SUMMARY.

Conditions vary in every district; each must study the methods available for Rural Medical Relief and select those most suitable for its own purpose.

Amongst the various measures which have been recommended to Government and which are under their consideration, are the following:—

1. A greater use of the Civil Surgeon as an expert adviser to local bodies.

2. Improvement of existing dispensaries, which should become local and efficient centres of Medical effort.

3. Employment of trained nurses in the larger dispensaries.

4. Employment of subsidised doctors, who should, where possible, make use of improved road communications.

5. Extension of the scope of dispensary doctors.

6. Increased employment of graduate doctors in rural areas either as subsidised practitioners or in charge of dispensaries.

14th June 1936.

Total for the Province ..	201	332	..	2	..	1	2	2	201	333	

(a) One Government Institution was wrongly classed as III class and hence the difference.

Classes I and II.—These include all institutions maintained by provincial funds and under Government management. The fact that an institution possesses endowments or receives contributions from local funds or private subscriptions has not been regarded as a reason for not classing it as "State" when provincial and imperial funds are practically responsible for all the charges connected with it. Class I—"Public" are State Dispensaries which are open to the poorer classes of the public. Class II are State Dispensaries which serve only a special section of the public as indicated in the sub-classification attached.

Class III.—Local fund dispensaries include all institutions which are vested in local boards or municipalities or guaranteed or maintained by local or municipal funds. The fact that such an institution, is aided by private subscriptions or receives assistance from Government in the shape of part of the salary of the medical officer, grants of medicine, or otherwise, has not been regarded as a reason for not classing it as a local fund dispensary, when its existence is practically dependent upon local funds.

Class IV.—Comprises institutions supported by private subscriptions or guarantee, but receiving aid from Government or local funds.

Class V.—Comprises institutions maintained entirely at the cost of private individuals or associations. The fact that Government supplies superior inspection or registers has not been regarded as a reason for not treating it as a private non-aided dispensary.

Class VI.—Comprises all railway dispensaries whether maintained by State railways or others.

Note.—The difference of Rs. 1,74,497, between the closing balance for 1934 and the opening balance for 1935, is due to the fact that the following four institutions have submitted this year their statement with the opening balance shown against them, while the G. T. Hospital, Bombay, has increased its opening balance from Rs. 43,000 to Rs. 1,79,400 :—

(1) Godhra Dispensary (Nasik District) .. .. Rs. 15,000
(2) Hiranand Leper Hospital, Mangopir (Karachi District) .. .. „ 20,091
(3) Civil Hospital, Hydorabad, Sind .. .. „ 3,352
(4) Badin Dispensary (Hyderabad District) .. .. .. „ 4,051
